

Dental Implant Surgical Phase Supplement

1. In accordance with the requirements governing the surgical placement of dental implants, the following 48 hours of Continuing Education must be completed (within the last five years). Please attach copies of all certificates and/or letter of completion.
 - 32 hours of General Implantology (anatomy, diagnostic evaluation, pharmacology, wound healing, biomaterials and periodontics)
 - 16 hours Clinical and hands on experience including training in the system utilized.
2. Continuing Surgical Phase Coverage requires 12 hours CE every 24 months. Online, DVD or CD sources used to meet these requirements must be certified courses under:
 - American Dental Association Continuing education Recognition Program (CERP)
 - Academy of General Dentistry Program Approval for Continuing Education (PACE)
 - American Medical Association Category One
3. Only Federal Drug Administration approved implants will be accepted.
4. Although a specific informed consent document is not required, the use of one is strongly advised for all phase of implant treatment.
5. I certify that I am in compliance with all requirements.
